# Use network providers and pharmacies

AARP® Medicare Advantage Extras from UHC TX-27 (HMO-POS) has a network of doctors, hospitals, pharmacies and other providers. For routine dental services, you can use providers that are not in our network. This health plan requires you to select a primary care provider (PCP) from the network. Your PCP can handle most routine health care needs and will be responsible to coordinate your care. If you need to see a network specialist or other network provider, you may need to get a referral from your PCP. We encourage you to find out which specialists and hospitals your PCP would recommend for you and would refer you to for care, prior to selecting them as your plan's PCP. If you use pharmacies that are not in our network, the plan may not pay for those drugs, or you may pay more than you pay at a network pharmacy.

You can go to **AARPMedicarePlans.com** to search for a network provider or pharmacy using the online directories. You can also view the plan Drug List (Formulary) to see what drugs are covered and if there are any restrictions.

# Medicare Advantage plans (Part C) and cost plans

**Medicare Health Maintenance Organization (HMO) plan** — A Medicare Advantage plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. In most HMOs, you can only get your care from doctors or hospitals in the plan's network (except in emergencies).

**Medicare HMO point-of-service (HMO-POS) plan** — A Medicare Advantage plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. HMO-POS plans may allow you to get some services out of network for a higher copay or coinsurance.

**Medicare preferred provider organization (PPO) plan** — A Medicare Advantage plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. PPOs have network doctors, providers and hospitals but you can also use out-of-network providers, usually at a higher cost.

**Medicare private fee-for-service (PFFS) plan** — A Medicare Advantage plan in which you may go to any Medicare-approved doctor, hospital and provider that accepts the plan's payment, terms and conditions and agrees to treat you — not all providers will. If you join a PFFS plan that has a network, you can see any of the network providers who have agreed to always treat plan members. You will usually pay more to see out-of-network providers.

**Medicare Special Needs Plan (SNP)** — A Medicare Advantage plan that has a benefit package designed for people with special health care needs. Examples of the specific groups served include people who have both Medicare and Medicaid, people who reside in nursing homes and people who have certain chronic medical conditions.

**Medicare Medical Savings Account (MSA) plan** — MSA plans combine a high-deductible health plan with a bank account. The plan deposits money from Medicare into the account. You can use it to pay your medical expenses until your deductible is met.

**Medicare cost plan** — In a Medicare cost plan, you can go to providers both in and out-of-network. If you get services outside of the plan's network, your Medicare-covered services will be paid for under Original Medicare but you will be responsible for Medicare coinsurance and deductibles.

# Stand-alone Medicare prescription drug (Part D) plan

**Medicare prescription drug plan (PDP)** — A standalone drug plan that adds prescription drug coverage to Original Medicare, some Medicare Cost Plans, some Medicare private fee-for-service plans and Medicare Medical Savings Account Plans.

# Other related products

**Medicare Supplement (Medigap) Products** — Insurance plans that help pay some of the out-of-pocket costs not paid by Original Medicare Part A and Part B, such as deductibles and coinsurance amounts for Medicare approved services.

**Dental, vision, hearing products** — Plans offering additional benefits for consumers who are looking to cover needs for dental, vision or hearing. These plans are not affiliated or connected to Medicare.

**Hospital indemnity products** — Plans offering additional benefits; payable to consumers based upon their medical utilization; sometimes used to defray copays/coinsurance. These plans are not affiliated or connected to Medicare.

# **Enrollment checklist**

Before making an enrollment decision, it is important that you fully understand our benefits and rules. If you have any questions, you can call and speak to a Customer Service Representative at the number listed on the back cover of this book.

# **Understanding the benefits**

# **Understanding important rules**

- In addition to your monthly plan premium, you must continue to pay your Medicare Part B premium. This premium is normally taken out of your Social Security check each month.
- Benefits may change on January 1 of each year.
- Our plan allows you to see providers outside of our network (non-contracted providers). Check the EOC to see which out-of-network services are covered on this plan. However, while we will pay for covered services the provider must agree to treat you. Except in an emergency or urgent situation, non-contracted providers may deny care. In addition, you will pay higher cost sharing for services received by non-contracted providers.
- Effect on Current Coverage. If you are currently enrolled in a Medicare Advantage plan, your current Medicare Advantage health care coverage will end once your new Medicare Advantage coverage starts. If you have TRICARE, your coverage may be affected once your new Medicare Advantage coverage starts. Please contact TRICARE for more information. If you have a Medigap plan, once your Medicare Advantage coverage starts, you may want to drop your Medigap policy because you will be paying for coverage you cannot use.

# **Important information:** 2025 Medicare star ratings

# UnitedHealthcare - H0609

For 2025, UnitedHealthcare - H0609 received the following Star Ratings from Medicare:

Overall Star Rating: ★ ★ ★ ★ 4.5 stars

Health Services Rating: ★ ★ ★ ★ 4 stars

Drug Services Rating: ★★★★ 4.5 stars

Every year, Medicare evaluates plans based on a 5-star rating system.

### Why Star Ratings are Important

Medicare rates plans on their health and drug services.

This lets you easily compare plans based on quality and performance.

Star Ratings are based on factors that include:

- Feedback from members about the plan's service and care
- The number of members who left or stayed with the plan
- The number of complaints Medicare got about the plan
- Data from doctors and hospitals that work with the plan

More stars mean a better plan – for example, members may get better care and better, faster customer service.

The number of stars shows how well a plan performs.
